Learn with IChemE

The Institution of Chemical Engineers (IChemE) is a market leader in process industry training. We offer an extensive range of courses to help chemical and process engineers, and their colleagues, develop their chemical engineering and process safety knowledge.

Learn online or face-to-face, and consider an in-company course if you have a team to train.

Course topics include

Process safety

Hazard identification and risk analysis (including HAZOP and LOPA)

Process safety management

Understanding hazards (including hydrogen hazards)

Human factors

Process and plant operations

Chemical engineering for scientists and other engineers

Distillation technology/troubleshooting

Plant and production management

Scale-up of chemical processes

Contract and project management

Contract law for engineering contracts

Engineering project management

IChemE Forms of Contract
